

THE CHINESE UNIVERSITY OF HONG KONG
Department of Mathematics
MATH2020B (Spring Term, 2021)
Advanced Calculus II
Final Exam Guideline

Date of Final Exam: 12:30pm - 14:30pm on May 12, 2021 (Wed)

Submission Procedure:

- The final exam ends at 14:30pm and you will then have 20 minutes (i.e., until 14:50pm) to scan and upload your solution on [Gradescope](#).
- You will receive your final exam paper on Wednesday (12/5) and there are 2 different versions. Please upload your solution accordingly. If you upload a version 1 solution to version 2, then your submission will not be entertained.

General Reminder:

- 1) Please match your solution to the given outline, **5 marks will be deducted** if you do not do so.
- 2) Multiple submission is allowed but only the **LAST** submission will be graded and counted.
 - Note that we DO NOT accept resubmission after 14:50pm.
- 3) No late submission is accepted because you are given 20 minutes to upload your solution to Gradescope.
 - Please make sure that you throw away all the wrong solutions before scanning your work. We do not accept late submission due to scanning the wrong pages.
 - We DO NOT accept late submission on Gradescope without our approval.
 - We will set a "late submission period" for students who need to submit late **with our approval**.
 - Please note that if you DO NOT have our approval, your deadline will be at **14:50pm**. Submission made later than 14:50pm will be regarded as late and therefore not accepted.
- 4) You should spare enough time for submission in order to avoid or get around technical issues such as WiFi connection or heavy traffic due to a lot of last minutes uploads near the deadline.
- 5) Open books, open notes, may search for reference and web. But you **CANNOT** ask anyone else for help or communicate with your fellow classmates.

- 6) Plagiarism will be checked seriously.
- 7) Answer all question, justify your answers.
- 8) If you have any question during the final exam, you should send an email to both of the TAs and cc Prof Chou, their email addresses are
 - Prof Chou: kschou@math.cuhk.edu.hk
 - Leon Li: ylli@math.cuhk.edu.hk
 - Luca Lee: yllee@math.cuhk.edu.hk
- 9) You **do not** need to join Zoom during the final exam.

Submission Format:

- a) One single PDE file only (**DO NOT** upload your homework in any photo format, such as jpg or png as they are not compatible with Gradescope.)
- b) File name should be in the format:

"Last name" + "initial" + "last 5 digits of your student ID" + "2020_final"

For example, if your name is "CHAN, Tai Man Peter" with SID: 1155012345, then the file name should be:

CHAN_TMP_12345_2020_final.pdf
- c) Write down your name and student ID on the top right hand corner of **every** page.
- d) Arrange your answer in order from the first question to the last question , and start a new page for each question.
- e) Match your solution to the given outline when uploading to Gradescope.
 - If the solution for a single question is written across multiple pages, select all those pages as one solution.
 - If you leave a question blank, please write down the question number and the word "blank" on a piece of paper, and then match the "blank" page to the corresponding outline.
 - **5 marks will be deducted** if you do not do so.
- f) You should scan your work as a PDF file then upload it as a PDF file. If you take photos of your work, please convert your photo in a PDF format, say, put them in a Word file then export the file as a PDF.
- g) You can type your solution (using either equation editor in Word or \LaTeX), but it is not recommended due to the limited time.
- h) You can write your solution using your tablet (e.g. with apps like Goodnotes, Notability etc.), but you need to export the file as a PDF.
