

Words from Professor II (October 8, 2014) A new version of Chapter 2 has been uploaded. I have revised it up to 2.3. Aside from typos, I point out three changes:

- Page 10. Proposition 2.7 (a) has made more precise.
- Page 12. More details are now given in the proof of Proposition 2.9.
- Page 15. The definition of a totally bounded set is added. The proof of Theorem 2.13 (c) implies (a) part has been modified.

If you don't bother much by typos and polish, you only need to make corrections on these pages.
