1. [Chow Tai Fook Service-Learning Programme: Service-learning Trip to Cambodia 2017 Winter](#)

The College organized Service-Learning Trip to Cambodia 2017 Winter from 27th Dec 2017 to 4th Jan 2018. Under the leadership and guidance of Mr. Tang Wai-hung, Director of Service-Learning Programme, 19 Sunnies from different majors have planned and provided various services to the Cambodians.

The service targets include children in the orphanage, university students, street children and their parents, the elderly and also secondary school students. The participants organized a wide variety of activities for them such as playing games, designing tote bags and aeroplanes, doing handicrafts, writing Chinese red banners, singing and dancing in the cultural night event, doing scientific experiments like water rocket, etc. It is delightful to see the students incorporating College spirit such as creativity and social responsibility into their service content. For instance, our students encouraged the participants to fully utilize their creativity in the Collection Game. When asked to collect things started with letter "A", the participants were so creative that some of them collected A4 paper while some collected Apps in their mobile phones.

The participants also had a deep discussion with university students and Cambodian parents to have a better understanding of the education system in Cambodia and promoted the benefit and importance of receiving education to them. One highlight is that both our participants and the local university students presented and exchanged ideas on The Belt and Road Initiative and gained more inspiration of the opportunities brought by this Initiative.

Besides, the participants also did some activities as suggested by the secondary school with their students. For example, they dug holes and planted 30 trees, collected rubbish in the school, made and decorated collection boxes together. Apart from that, the participants also have some unforgettable experience, including homestay, visiting S21 Museum and Killing Field, going to market and preparing meals with local villagers, visiting The Royal University of Phnom Penh, planting mangrove trees in water and riding on a boat to see fire-flies.

After undergoing the process of planning, preparation, implementation and daily evaluation and sharing throughout the Trip, the students had gained more insight of the life and development in Cambodia in addition to polishing their interpersonal and leadership skills and having a higher sense of social responsibility.
