Excellent and enlightening lectures

will the slides of the talk be shared?

Can I have certificate for attending this conference?

again, some minor technical problem

Practical and useful. The information is what we need in hip fracture services in HK. Thank you

Very informative

Missing some part of presentation due to work, it's nice to have a recorded video for sharing and review. Thank you for organising

You guys were amazing! Thanks for an insightful conference!

Informative. Thank you very much.

N/A

Look forward to knowing more about Hong Kong's FLS...if any volunteer services will be needed.

case discussions were great

very fruitful conference, good to learn about updated technology and cases rarely seen

Thank you

Very strategic; in both retro and prospective approach with strong evidence based and practical work examples of protocols in managing FHF in different countries.

Dissemination of project outcomes to the relevant professionals

The proceeding provides valuable reference for development of clinical guidelines and protocols for the management of the Prospective Management of Osteoporotic Fractures in different stage and settings.
