

# OPEN LECTURE

## *Clinician (Surgeon) Scientist : Facts or Fiction?*

*by*

*Professor James HUI*

Head & Senior Consultant  
Division of Paediatric Orthopaedic Surgery  
Department of Orthopaedic Surgery  
National University Hospital, Singapore

### Synopsis

*It is always a challenge for an academic surgeon to excel in all three areas of research, teaching and surgery. In this lecture, the speaker will share his journey in discovering novel therapies, which span from the laboratory bench, through animal models and into clinical trials, while balancing his commitment to developing clinical expertise.*

**Date** : 12<sup>th</sup> May, 2015 (Tuesday)
