Brief Description:

Assessment and rehabilitation requirements for different body regions will be covered systemically, highlighting their special requirements. This would include rehabilitation for tendon and nerve injuries in the upper extremities, rehabilitation of ligament injuries in the lower limbs (especially related to sports injuries), and back rehabilitation. Special issues will cover rehabilitation for joint replacement, major and multiple fractures (e.g. pelvic fractures)

本科目將覆蓋上肢肌腱和神經損傷的康復、下肢韌帶關節損傷（特別是與運動損傷有關）、背部康復、關節置換及主要和多發性骨折（如盆骨骨折）。

Learning Outcome:

Students should be able to understand and apply:

1. Spinal problems: lower limbs arthritis, lower limb injuries, upper limb injuries and upper limb non-injury disorders
2. Nerve injury rehabilitation, major trauma, multiple trauma, overuse syndromes, ankylosing spondylitis and rheumatoid arthritis
3. Musculoskeletal infection, tumour surgery and osteoporotic fracture
4. Obstetrical and gynaecological related musculoskeletal problems
5. Burn management and plastic surgery

Attention: University policy and regulations on honesty in academic work

Attention is drawn to University policy and regulations on honesty in academic work, and to the disciplinary guidelines and procedures applicable to breaches of such policy and regulations. Details may be found at <http://www.cuhk.edu.hk/policy/academichonesty/>.

With each assignment, students will be required to submit a signed [declaration](#) that they are aware of these policies, regulations, guidelines and procedures.

- In the case of group projects, all members of the group should be asked to sign the declaration, each of whom is responsible and liable to disciplinary actions, irrespective of whether he/she has signed the declaration and whether he/she has contributed, directly or indirectly, to the problematic contents.
- For assignments in the form of a computer-generated document that is principally text-based and submitted via VeriGuide, the statement, in the form of a receipt, will be issued by the system upon students' uploading of the soft copy of the assignment.

Assignments without the properly signed declaration will not be graded by teachers.

Only the final version of the assignment should be submitted via VeriGuide.

The submission of a piece of work, or a part of a piece of work, for more than one purpose (e.g. to satisfy the requirements in two different courses) without declaration to this effect shall be regarded as having committed undeclared multiple submissions. It is common and acceptable to reuse a turn of phrase or a sentence or two from one's own work; but wholesale reuse is problematic. In any case, agreement from the course teacher(s) concerned should be obtained prior to the submission of the piece of work.
