# School Improvement Project

---

by Wong Yu Him  
P.4B(24)

Hi, teachers and fellow students. I am Wong Yu Him from Class 4B. I will share with you about my school today.

My school is big. It has a playground, a lot of classrooms and a big assembly hall.

The school has 8 levels. Each level has 5 classrooms. The hall is on the fourth floor.

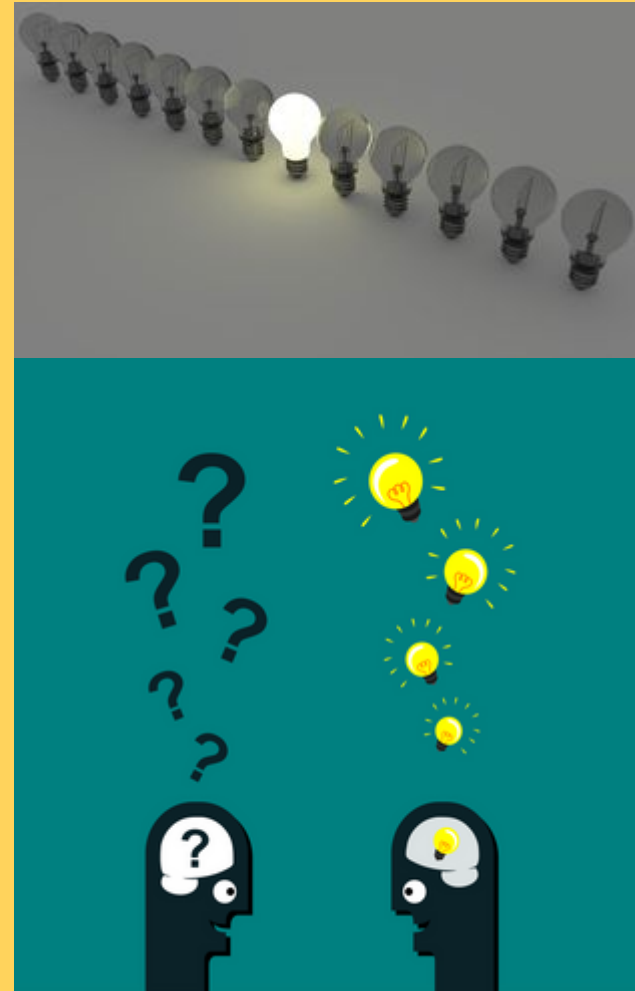

The school playground has a slide, a seesaw and a running path.

To improve our school further, there must be a student representative to handle the improvement project.

I want to be the student representative because I have studied here for four years. I know more about my school than other younger schoolmates. I am reliable and hard-working. I also have a great communication skills too.

Do you want to know my creative ideas? Just turn to the next page.

Here is my idea.

I will suggest a rooftop garden because it can make our school a greener place. It may make our school even more beautiful!

My schoolmates and teachers can always visit there for a fresh air during recess or lunch hour. Life will be healthier and relax! This is the best idea for a healthy wellbeing than ever!

I have some steps to finish my project.

First of all, I have to raise money.

To raise money, I will suggest to organise a food fair. We can build some booths at school playground during long holidays and invite food providers to sell the food to people there.

Once enough money is raised, we can vote for the best equipment to be installed at the rooftop garden.

We can also search on the internet for second-hand equipment to minimise the cost.

The last step is to plant trees, vegetables and flowers. Then, the rooftop garden is finished!

I will plant different vegetables, like carrots, grapes and lettuce.

Next, I will also plant some trees, like apple trees, bamboo and orange trees.

The last, I will plant some flowers too, like orchids, roses and sunflowers.

I hope that you love my idea and that you'll consider selecting me as a student representative for the school improvement project committee.

I really adore and admire our school so please vote for me.

Besides, I will find students to join the school improvement project committee.

You can participate from 3rd of January, 2023, to 31st of May, 2023. Please join me and actively participate!

Thanks for your support!

*Thank You!*
