

School Improvement Project

Nick Ho, who would like to be a student representative of the school improvement project committee, is sharing his idea for improving the school.

Good afternoon teachers and fellow students.

I'm Nick Ho from Class 5C. I would like to point out why you should select me as a student representative for the school improvement project committee.

I've been studying at this school ever since I was six years old. I really admire and care about our school. I've learned to count, read, study, and speak two other languages all thanks to this school. I feel proud of myself, as this makes me trilingual! I've also met a lot of good friends here. We all feel that we should make some changes to our school that would benefit everyone. Therefore, I've decided to take on a potential role as student representative and hopefully I'll be able to speak up on behalf of you.

Let me share with you just one of my main ideas for improving the school. I'm suggesting revamping our playground with more equipment, such as swings and slides. To raise money for that, my plan is to organise a fun fair with different clubs. We can invite and sell tickets to people in the neighbourhood to entice them to come to the fun fair. Each club can make a fun game booth and we can set the booths next to the irresistible sweet smell of popcorn makers and by the fluffy candy floss machines. Once enough money is raised, we can vote for the best equipment to be installed at the playground. With a better playground, we'll definitely study hard and play hard too. It will be an added bonus for our end of year school results!

I hope that you love my idea and that you'll consider selecting me as a student representative for the school improvement project committee. I have many more enthusiastic ideas. One final reason why you should select me as a student representative is that I'm reliable and hardworking. I also have great communication skills. I really adore our school so please vote for me. Thank you!
