School
improvement
project

Everyone can be
a representative!

Good morning
teachers and
students!

I am Leo
from 4B!

I would like to point out
why I want to be chosen
as a representative.

I have 4 years of
excellent school life
experience!

I know the school
like the back of my
hand!

I am a responsible and honest student because I've
learned and made a fantastic habit all because of this
amazing school!

I have decided to be a good representative to
make the whole school a better place!

Improvements and ideas

Firstly

I want to improve
the school by renovating the noisy
PLAYGROUND!

Why ?

I think that we have less equipment
and tools to play with.

So...

Please turn to next page.

What I really want to
do is...

To add more facilities!!

Why again?

Because it is a bit too boring in the playground.

We can only play catch, kicking football...

What do I really want to
add?

Please turn to next page.

I really want to add a...

ROLLER
COASTER!!!

Isn't it
really
fun?!

And...

Please turn to next page.

A...

ZIPLINE!!!

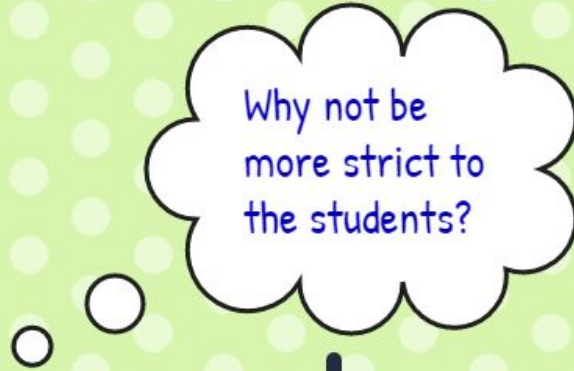

Isn't it
also
really
fun?!

Why would I
want to do
that???

Please turn to next page.

Because...

I want to make everyone happy!

Because (again)

(Find out in the next page!)

Please turn to next page.

Smarty pants

If we are always, the students will have more stress. They won't even want to come to the playground to play!

So, we need to have more fun things for our students!

Be free Be happy Be relaxed

Please turn to next page.

Happyhearts

The students will
also think that the
teachers are so kind!
It's a win-win!

Think again

But wait,
won't the
children be
lazier?

Happyhearts

Well I didn't think
about that!

Please turn to next page.

Happyhearts

Think again was quite
right, people can get
lazier sometimes when
they only think about
playing.

Think again

Yes, that is true!
But how could we
fix this?

Happyhearts

I KNOW!

Please turn to next page.

Oh wait, where do we
get money to bulid
it!?

Smartypants

I know what to
do! This is the
perfect idea!

Do you want to know the
PERFECT idea?

Please turn to next
page.

The perfect idea is:

We can make money by a lot of ways!
For example, we can make a little
market place at school that sells our
students artworks. People can pay 50
dollars a visit and buy stuff if they like
it! We have to work harder if we want
our "costomer's" attention! This can
make our school's reputation a lot
higher that anyone else. Our
"customers" will be happy too because
they have bought what they like!

Also, since our school has better facilities, maybe at every Saturday, we can make events like planting plants in our sky garden, a little show from music teams, dance teams, and special organized students (students that know magic and tricks...). Everyone can pay money to watch our shows! There is also one more thing too! We can make an online cram school for other people to participate! We can help other people and solutionize our knowledge too. That's how we can get money. I think it's a kind of a reward too, because our students worked super hard on this little program!

Real meaning

Our outstanding students are not willing to just receive money by donating, we don't want people or parents to "give" us money to build our dream playground. We would like to do everything we can do to "earn" money for our big project! We believe that when the roller coaster and zipline are built, we will feel more satisfied by our hard work and effort! Do you agree with me?

My belief

Work Hard

Play Harder

People like us
who have
really good
potential can
really have
good
influence! It is
important to
be good!

Therefore, the students can be happier and satisfied. They also will work harder since they know they can play after finishing!

Please vote for me if you want to have a good representative!

The
end

For
listening!
