In the morning, we visited the Avenue of Stars. We went there by bus. We looked at the beautiful views of Hong Kong Victoria Harbour. The smell the sea was wet and salty. We felt peaceful in an instant.

Chris Watson, my best pen friend, who lived in London. He visited Hong Kong with him family last week. I took him to visit some famous places in Hong Kong.

There were many handprints and signatures of famous stars.

Then, we went to take photos with the statues celebrities 📷, such as "Big Kung Fu Star" Mr Bruce Lee and "Big Singing Star" Miss Anita Mui 🎤.

Suddenly, he said excitedly, "Look!" We saw statues and handprints of the famous cartoon characters "McDull!" and we screamed "It's extremely amiable!"

After lunch, I took him to visit Hong Kong Disneyland 🏰. We went there by MTR 🚇.

We saw our favourite cartoon characters, Mickey and Minnie. There we took many photos 📷 of them. Then we went to buy Mickey ice-lollies and juices 🍹 which were delicious. We bought some souvenirs 🛍️ for our family members too.

Next, we visited Tomorrowland. We played Hyperspace Mountain. There were many aliens inside. It was dark and terrible!

Then, we played Iron Man Experience which was a 3-D Motion simulator. In the course of playing, it would shake around, and there were a variety of special effects. It was really exciting and amazing!

After that, we played a lot of rides. The most exciting one was the Big Grizzly Mountain Runway of Grizzly Gulch 🐻🎢. It had the sound of lightning ⚡ and the roar of two bears 🐻. That made us screamed and sweated 😓. We were extremely excited.

At last, we watched the night parade and fireworks. We were frightened by the sound of fireworks and explosions but they were beautiful and colourful. The characters and dancers lit up the night. They were excellent and amusing.
