

CONGRATULATIONS

BME Undergraduate Student won the CUHK Vice-Chancellor's Scholarship for Excellence (2021-22)

CUHK has given out eight awards of Vice-Chancellor's Scholarship for Excellence to distinguished students in recognition of their outstanding achievements.

Our undergraduate Year 2 student, Jarinyagon Chantawannakul, was one of the recipients. "The scholarship recognises my past accomplishments, financially supports my educational pursuits, and opens me up to new opportunities. Although my career path is still unclear, I am sure I will work in the biomedical community," remarked Jarinyagon.

Jarinyagon had a chance to meet 7 other awardees, Deans, and Vice-Chancellor in the award ceremony. "Even though we all have different interests and past achievements, all we have in common was the passion to strive for excellence. With support from the scholarship, I shall aim for improving myself and contributing to BME, CUHK and our society."

Congratulations to Jarinyagon!
