Department of Sociology

Undergraduate Sociology Courses Offered in 2023-24  
(By Suitability Level)

03.08.2023

**Applicable to 4-year Programme**

This list is intended to guide sociology major students in their selection of courses. While it is not entirely impossible for a first year student to take a course intended for second and third year students, we do not encourage it in the interest of learning effectiveness. If a course is listed under "All years", it is available to first year students.
