

Renewal for (2023-24) CUHK Parking Labels
(New Label Effective Date: 1 Oct 2023 to 30 Sep 2024)

As per announcement made earlier, the expiry date of current (2022-23) parking labels has been extended to 31 Oct 2023. Please be informed that (2023-24) parking labels, with expiry date on 30 Sep 2024, can be applied from today onwards.

Current (2022-23) parking label holders who wish to renew their labels are advised to apply early and have new labels collected before 31 Oct 2023. First time applicants, when submitting the application to Security Office, are required to produce relevant supporting documents (original or photocopy) including valid driving license, vehicle registration document and insurance policy for verification purposes.

If the application and supporting documents fully meet the requirements for issuing parking labels, the new parking label will usually be ready for collection at the Control Room of Security Office (24 hours in operation) in 2 working days after submission of application. Staff identity card / HKID of the applicant or his/her representative should be produced upon collection of the new label for verification and acknowledgement purposes. Besides, old labels are required to be returned to Security Office upon collection of the new labels while the RFIDs are to be retained for use in new label year.

Details of the application and application forms can be found and downloaded from the Security Office Webpage:
