**UpToDate App Installation Guide**

1. An individual account is needed to use the UpToDate mobile app. **Registration must be done on campus.**

2. Register your [UpToDate](#) account with any PC in the Library or with your device(s) connecting to the CUHK Wi-Fi network (CUHK1x). If you have done that before, you can use the registered account to login to the mobile app.

3. Click on the orange "Register" icon at the top right-hand corner of the page to create an account under CUHK Library subscription.

4. Complete all the fields and then click "Submit Registration". You will receive a confirmation email from UpToDate.

5. Install the UpToDate App at [Apple Store](#) or [Google Play](#) on your mobile device.

6. Open the app and log in with your UpToDate username and password.

7. You need to connect your mobile device(s) with online network in order to access the content of UpToDate.

8. To continue the use of the mobile app, you are required to re-validate your UpToDate account every 90 days. To-revalidate, login to your UpToDate account with any PC in the Library or with your device(s) connecting to the CUHK Wi-Fi network (CUHK1x) and then re-open the UpToDate app.

9. You can link **two** mobile devices to UpToDate at one time. If you want to install the UpToDate for a new mobile device, you need to unlink the UpToDate for a device first. To unlink the device, open the app and go to Setting > Account > Manage My Devices.
