RESEARCH EXPERIENCE

A Feasibility Research on Incorporating Child Injury Prevention into Basic Public Health Services Spring 2018
Advisor: Prof. Shen Qunhong

A Research Sponsored by the Chinese Center for Disease Control and Prevention

- Explores child injury needs of community residents, examines the ability of primary-level medical and health care institutions in preventing child injury, and analyzes the feasibility of including child injury in the Basic Public Healthcare Services.

Finding Park Space in the Los Angeles Promise Zone 2015-2016
Advisor: Prof. Gary Painter

A Project Prepared for the Mayor's Office of Economic Development & Youth Policy Institute, LA

- Identified schools where joint use of schools as recreational space should first be implemented, and the criteria that should be used to assess a school's willingness and ability to support jointly used recreational spaces.
- Conducted a spatial analysis through ArcGIS on need, safety, and physical capacity, and contacted the school principals to administer in-person interviews and site assessments.

Improving Millennials' Civic Engagement in Political Life Spring 2016
Advisor: Prof. Terry L. Cooper

A Project Focused on the Decline in Civic Engagement among Millennials

- Analyzed the conditions of Millennials' political engagement and the reasons behind the disconnection, provided strategies that could be used to improve Millennials' civic engagement, and discussed the function of Internet and social media in helping solve the disengagement issue.

Marketing Strategies towards LGBTQ and API to Improve Access to Health Care Spring 2016
Advisor: Prof. LaVonna B. Lewis

A Project Focused on New Initiatives to Improve Access to Health Care among LGBTQ and API Communities

- Identified the disparities and barriers to obtaining health care among these communities, addressed their specific needs, and provided strategies L.A. Care can implement to serve their patient population better.

Trends and Variations in Housing Characteristics from Baby Boomers to Millennials in California Fall 2015
Advisor: Prof. Dowell Myers

- Examined demographic and housing variables to observe the three generations' changing over time by utilizing the analysis of time contract and cohort contract.

Measuring Wealth-Based Inequality in Health Care Utilization among Older Adults in the United States Fall 2015
Advisor: Prof. Julie Zissimopoulos

A Research Explored the Relationship Between Wealth and Health

- Analyzed changes in doctor visits from 2002-2012 for adults over the age of 50, utilized an OLS regression to find a strong correlation between wealth and doctor visits, and used a fixed effects model to address respondents in the bottom and top quartiles to indicate the widening wealth gap.

Preventing Sexual Violence on College Campuses: Title IX Implementation Analysis Spring 2015
Advisor: Prof. Dan Mazmanian

- Examined the effectiveness of sexual violence prevention programs under Title IX mandates by comparing sexual assault programs found on various college campuses in the Greater Los Angeles area.

Cost-Benefit Analysis of Breast Cancer Preventive Services

Spring 2015

Advisor: Prof. T.J. McCarthy

- Examined the costs and benefits of three preventive services included in Covered California, which was the Affordable Care Act (ACA) implementation in California.

Commercial Sexual Exploitation of Children

Fall 2014

Advisor: Erica Reynoso, Ph. D. and Kathleen Piche

A Project Sponsored by the Los Angeles County Department of Mental Health

- Focused on male victims of commercial sexual exploitation.
- Collected relevant references, wrote a literature review, and visited Central Juvenile Hall of L.A. to do a field study.

Preventing Children from Joining Gangs

Fall 2014

Advisor: Prof. Pam Clouser McCann

- Explored the most feasible and flexible prevention strategies to address youth gang problems by comparing four types of approaches.

Cultural Factors in Advertising Films of Famous Historical and Cultural Cities

2012-2014

Team Leader

Advisor: Prof. Tu Guangjin

A Project Sponsored by National Undergraduate Research Foundation

- Analyzed advertising films in domestic and abroad, interviewed residents of Dali and Phoenix Town using the Satisfaction Index Model, processed 1011 effective questionnaires using SPSS, and offered some suggestions.
