## 2. Platform Development

Overview of the background and significance of platform development (within 800 words):

Overview of the objectives and content of platform development (within 800 words):

### **3.Existing Collaborations**

Overview of the team's size and structure, the existing collaborative activities between the two university teams such as scientific exchanges and joint research outputs, and experimental platforms (existing lab space and equipment) (within 1200 words):

#### 4. Platform Development Goals and Schedule

The expected platform development goals (specify quantitative indicators if possible, such as joint publications, patents, external funding, and commercialization.) (within 800 words):

|  |
|--|
|  |
|--|

Briefly describe the specific research plan, stage objectives, and assessment indicators, in terms of every year for a total of up to 3 years:

|         |  |
|---------|--|
| Stage 1 |  |
| Stage 2 |  |
| Stage 3 |  |

## 5. Budget

| Items                             |                | Amount (in 10,000) |                        | Detailed Justification |         |
|-----------------------------------|----------------|--------------------|------------------------|------------------------|---------|
| Direct Costs                      |                |                    |                        |                        |         |
| 1) Equipment Expenses             |                |                    |                        |                        |         |
| 2) Human Resources Costs          |                |                    |                        |                        |         |
| 3) Conference and Travel Expenses |                |                    |                        |                        |         |
| 4) General Expenses               |                |                    |                        |                        |         |
| Total                             |                |                    |                        |                        |         |
| List of Equipment to be Purchased |                |                    |                        |                        |         |
| No.                               | Equipment Name | Quantity           | Unit Price (in 10,000) | Purchasing campus      | Remarks |
| 1                                 |                |                    |                        |                        |         |
| 2                                 |                |                    |                        |                        |         |
| .....                             |                |                    |                        |                        |         |
| Total                             |                |                    |                        | /                      | /       |

Note: **General Expenses** primarily cover costs incurred during project implementation, such as materials, testing and processing, fuel and power, publishing/literature/information dissemination/intellectual property matters, and other expenditures. **Human resource costs** mainly include wages or labor payments for researchers and research support staff involved in the project and expert consultation fees.

## 7. Relevant Basic and Supporting Materials of Cooperation

Table 1. List of Major Projects Undertaken

| No.   | Project Name | Project Type | Person in Charge | Grant Period | Grant Amount/in 10,000 |
|-------|--------------|--------------|------------------|--------------|------------------------|
| 1     |              |              |                  |              |                        |
| 2     |              |              |                  |              |                        |
| 3     |              |              |                  |              |                        |
| ...   |              |              |                  |              |                        |
| Total |              |              |                  |              |                        |

Table 2. List of Representative Papers/Works (no more than 3 items)

| No. | Topic | Author | Publication Title/Publisher/Conference Name | Volume, Issue, Page | SCI/EI/... |
|-----|-------|--------|---|---------------------|------------|
| 1   |       |        |   |                     |            |
| 2   |       |        |   |                     |            |
| 3   |       |        |   |                     |            |

Table 3. List of Representative Awards (no more than 3 items)

| No. | Award Title | Completer | Level | Date |
|-----|-------------|-----------|-------|------|
| 1   |             |           |       |      |
| 2   |             |           |       |      |
| 3   |             |           |       |      |

Table 4. List of Representative Patents (no more than 3 items)

| No. | Title | Inventor | Date | Patent No. |
|-----|-------|----------|------|------------|
| 1   |       |          |      |            |
| 2   |       |          |      |            |
| 3   |       |          |      |            |

Table 5. List of Existing Major Instruments and Equipment (unit price over RMB/HKD 50,000)

| No.   | Equipment Name | Specifications | Quantity | Unit Price/ in 10,000 |
|-------|----------------|----------------|----------|-----------------------|
| 1     |                |                |          |                       |
| 2     |                |                |          |                       |
| 3     |                |                |          |                       |
| ...   |                |                |          |                       |
| Total |                |                |          |                       |
