

Department of Chemistry  
The Chinese University of Hong Kong

# Mini Symposium on $\pi$ -Conjugated Materials

**Synthesis and Properties of Acene Derivatives**

9:00 am - 9:40 am

Prof. Hiroko YAMADA, Kyoto University

**Development of n-type Molecular Dopants  
based on Dipyranylidene Derivatives**

9:40 am - 10:20 am

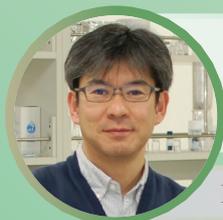

Prof. Kazuo TAKIMIYA, RIKEN

**Molecular Carbons with Different Shapes and Sizes**

10:30 am - 11:10 am

Prof. Chunyan CHI, National University of Singapore

**Design of Novel  $\pi$ -conjugated Materials through  
Control of Molecular and Electronic Structures**

11:10 am - 11:50 am

Prof. Hiroshi KATAGIRI, Yamagata University

**Recent Progress in Polycyclic Heteroarenes  
toward Functional Materials**

11:50 am - 12:20 pm

Prof. Qian MIAO, The Chinese University of Hong Kong

**16 MAY 2024, 9:00 am - 12:20 pm**

**L2, Science Centre, CUHK**
