Your Side Project Worth More Than Your Degree? Brian WU, Director, Digital & AI Enablement

In an AI world, execution is the new GPA.

We're not talking theory. We're showcasing real apps that solve real problems. Discover how to spot opportunities, build strategically, and turn your skills into the thing companies actually fight over.

- **A hands-on leader in AI adoption, translating emerging tech into business execution**
- **Rich experience in driving digital strategy on the ground to educating others**
- **Focusing on providing actionable tools and mindset shifts to adapt this accelerated world**

Registration Deadline: Jan 31

**7 Feb 2026
14:00 - 17:30
CUHK ELB**

Career that Compounds

Serina WONG, Managing Partner, Executive Research

When 8,000+ candidates compete for a handful of roles, grades alone won't set you apart.

If AI makes everyone's CV look perfect, what really differentiates you?

Once you get in, what determines who grows and who quietly stalls?

A candid conversation on building careers that compound in an AI-driven world."

- **Founder and Managing Partner of Dresden Green Consulting**
- **Over 20 years of experience in executive search across global financial institutions**
- **Advises CEOs, boards, and senior leadership teams across banking, asset management, alternatives and fintech**

Registration deadline: Jan 31
